

Super-Charging SAP SuccessFactors!

Unlock the full potential of SAP SuccessFactors with Rolling Arrays Technologies. From personalized feedback to AI-first analytics and seamless expense management, RA Tech solutions are designed to super-charge SAP SuccessFactors and deliver exceptional value.

REIMBURSE

AI-enabled Expense and Travel Management Solution

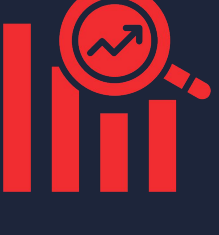

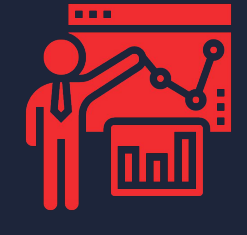

- Expense Management
- Travel Management
- Benefits Management
- Receipt Management

With its seamless integration, cost-effectiveness, and advanced AI capabilities, Reimburse helps employees get reimbursed faster and enables organizations to eliminate duplicate and non-compliant expenses.

ReeCap

AI-First Analytics for HR Leaders

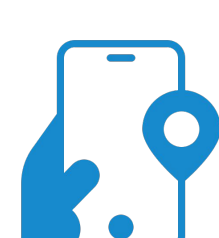

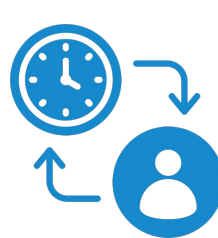

- AI-Driven Dashboard & Visualization
- Dynamic Data Synthesis
- Power to Predict the Future
- Research-Backed Recommendations
- Insightful Interaction
- Correlated Feedback Visualization

ReeCap helps HR leaders become strategic partners by providing them with board-ready insights, enabling data-driven talent decisions, and eliminating time-consuming analytics tasks.

CICO

Intelligent Time Management Solution

- Time Capture
- Time Evaluation
- Roster Management
- Reporting

CICO is an end-to-end time management solution built for SAP SuccessFactors. It improves efficiency, reduces labor costs, ensures compliance, enhances scheduling, and boosts workforce productivity and accountability.

SOLUTIONS NATIVELY BUILT FOR SAP SUCCESSFACTORS

POWERED BY SAP BUSINESS AI

AI-First Recruiting Chatbot

- AI-powered Fitment Scores
- Seamless Candidate Verification
- Elevated Employer Branding
- Automated Application Process
- Empowered Recruitment Screening

REO automates candidate pre-screening, engagement, and application completion. It analyzes job descriptions and candidate CVs to generate personalized interactions and fitment scores.

Plug-and-Play Document Management

- AI Assisted Document Search
- Flexible Document Categorization
- Document Alerts & Audit logs
- Document Generation

With a focus on simplicity, cost-effectiveness, and seamless integration with SAP SuccessFactors, ePFile provides a comprehensive solution for the efficient and secure management of employee documents.

AI-First Feedback Platform

- Hyper Personalisation
- AI-assisted Survey Creation
- Actionable Insights
- Seamless Integration
- AI First Analytics

ReeCollect is an AI-first feedback platform that leverages AI to personalize feedback and gather employee insights. It provides a more personalized experience for users by tailoring questions and analyzing responses.

Course Creation Solution

- Create Course
- Add Content
- Publish & Manage

eAuthoring is an easy-to-use course creation add-on designed for SuccessFactors LMS, enabling users to create and publish courses with ease.

LMS Attendance Taking Solution

- QR-Based Attendance Capturing
- Attendance review and validation
- Attendance & training reports
- Role-based access control
- Audit Logs To Trace User Actions

LSYNC streamlines attendance tracking and management within the SuccessFactors LMS module, making it a valuable tool for enhancing learner success and reducing administrative burdens.
